EXPERIENCE SAUER BIBUS LIVE:

Digital Impulse Event on Tuesday, March 16, 2021!

As a specialist in innovative drive technology, the company SAUER BIBUS with customer-specific solutions always set new standards for machines in the construction industry, agriculture and forest technology. These innovations were in the past presented to the trade audience primarily at trade fairs and so in personal conversations valuable contacts were generated.

SAUER BIBUS adopted very early to the new market conditions and set up its own Chat room. Here, according to Managing Director Ralf Schrempp, at regular intervals short films on current topics in drive technology are published to show at least virtually very close presence to the customers and users.

Now the company is going one step further and presents with the Digital Impulse Event a for SAUER BIBUS new format for customer communication.

Digital Impulse Event - how innovative strength results in solutions.

Under the motto "INNOVATIONS TURNING INTO YOUR SOLUTIONS" the company presents on March 16 from 3:00 p.m. - 4:00 p.m. in short sessions innovative solutions from the world of mobile drive technology. These offer specific advantages in the areas Drive, Work and Control.

DRIVE stands for the development of systems consisting of pumps and motors, display instruments and drive technology.

WORK combines process solutions that are always individual on the respective customer and his applications to be matched.

CONTROL focuses on continuous improvement in all projects and analyzes, evaluates and optimizes individual work steps in a targeted manner.

For managing director Ralf Schrempp is next to the Event itself also another aspect of central importance:

“For me it is also crucial that our entire team identifies itself with this new form of customer communication and designs and implements actively with great motivation the event program. That is one of the reasons why we would naturally be very pleased with a great number of participants.”

The event program.
